At Playscape Engineering we build play solutions, creating adventurous, stimulating settings for children of all ages and abilities to enjoy.

Creative play is key to a child's development. Our designers will work with you to develop a scheme that fits your needs and site. Whether it's an individual piece of equipment, a landscaped entrance feature or a unique forest school activity trail, we can advise you every step of the way.

BESPOKE DESIGNS

WATER PLAY

Water play is great for developing cognitive and social skills, plus it's fun!

We can create unique environments using natural materials to encourage learning through play, from problem solving, experimenting or simply exploring.

FOREST SCHOOLS

Creative play

Natural materials

Confidence building

Build balance and confidence with a forest school feature.

Encourage natural thinking and a love of outdoor adventure with a tree walk, wildlife zone or storytelling circle, amongst many other possibilities.

Forest Fun Kit

A kit containing a selection of natural materials to create many different projects. Shelters, see-saws, walkways and storytelling areas are just a few examples. Great for problem solving.

FITNESS & ACTIVITY

We don't need to tell you about the benefits of living an active lifestyle.

By making gym equipment, trim trails and games areas accessible for children of all ages you can really make a difference to the health of your pupils.

ENGINEERING

Part of the Landscape Engineering Group:

Registered and accredited by:

Landscape Institute
Ambassador
for Landscape

"The Landscape Engineering Group provides us with a full range of services from design to grounds maintenance. We have worked together for a considerable amount of time and would have no problem in recommending them. Landscape Engineering to maintain and construct our grounds, Playscape Engineering to Design our grounds and Resibond to carry out our surfacing. They are truly a 'one stop shop'."

Headteacher: Mr. S J Purtill, Padiham Primary School, Padiham, Burnley
